SBCC AA/AS Degree Graduation Requirements (Must complete I, II, III and IV below)

Santa Barbara City College

Real Estate

2017-18

Associate in Science Degree in Real Estate

The Real Estate curriculum is designed to provide the student with the courses necessary to master the basic facets of the real estate industry. The curriculum appeals to all students interested in the real estate business, but it also is designed to prepare students for professional certification as real estate salespersons and brokers. It specifically provides the student with the core course needed to sit for the salesperson license exam i.e. Real Estate Principles. The curriculum also provides students desiring to sit for the broker license exam the five required courses (Real Estate Practice, Real Estate Appraisal, Real Estate Economics, Real Estate Finance and Legal Aspects of Real Estate) and the remaining three elective courses. These courses do not, however, meet salesperson/broker continuing education requirements.

Careers in Real Estate

Trained real estate professionals have opportunities as property managers, appraisers, rental agents, and salespersons. Banks, savings and loan associations, insurance agencies, developers, and brokers are also interested in these trained professionals.

SBCC: Your Open Door to Educational Excellence
