Santa Barbara City College

Sociology

2017-18

Associate in Arts Degree in Sociology

Santa Barbara City College's Sociology Program is designed to aid individuals in penetrating the superficialities of social life --enabling them to better comprehend and then act upon the social problems of our complex times. It is oriented toward meeting the needs of both the career-minded student and the student with an academic interest in the field. In essence, the stress is on preparing students for everyday life, as well as imparting the skills required for professional employment. Program courses underline the vital importance of adhering to scientific procedures, rather than gossip, propaganda, mythology and other non-logical approaches, when one attempts to explain human relations and their consequences.

Careers in Sociology

A major in Sociology may lead to a career in teaching, urban and environmental studies, law, administration and delivery of social and health services, practical politics, government services at local, state and federal levels, and other related occupations.
